Roger;

Enclosed are photos + negatives shot at 2 1/3 x regular size. They will need to be reduced to get the size you wish.

I hope my beautiful photos dont make the others look bad (ho ho).

I shot these all on my Polorad Industrial Camer using positive + negative film. This is the first time I have used it — the result seems to be good. The camera was tilted to bounce (reflect) light off the surface. The person printing these may with to

JACK H. BEYMER
367 CODDINGTOWN CENTER
SANTA ROSA, CA 95401

compensate by tilting the printer.

If you wish others shot let me know.

Thanks

Jack

12/28/81

Jack H. Beymer
367 Coddingtown Center
Santa Rosa Ca. 95401

Hear Jack.

Here are your Negatives. The Printer remarked how good the Coins looked and then cussed when I told him what He had to do.

I ended up using:

1809 #4

1810

1828 #2

Next time!! I going to use shots that are at least 2½ inches in Diameter. Also don't let go of these Coins without letting Me know.

I must admit that your shots are spektacular also it is My experience that Bill Raymond takes far better Pictures than Jules Reiser. Just the same I hope people will be satisfied with the Pictures. I ran a list of the Coins photoed and find that all of them are in the C.C.

The book Has gone to the Printer and should be available on January 31, then about 2 weeks it will get 20 un-bound Copies which I am going to make into Presentation Copies - Relax you're on the list. I also plan to send to those Persons whose Coins are photographed the list I made up hoping ~~as~~ to ask for any additional data they want released to the others whose

Cairs have been photographed.

I've put your name by the three cairs and I am sure you will recognise them

Sincerely

Roger
